ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

APPROACH TO ENVIRONMENTAL, SOCIAL AND GOVERNANCE AND REPORTING

This Environmental, Social and Governance Report (the “**ESG Report**”) summarises the initiatives, programmes and performance of the KOALA Financial Group Limited (the “**Company**” and its subsidiaries as the “**Group**”) as well as demonstrates its commitment to sustainability.

The Group believes that environmental protection, low carbon footprint, resource conservation and sustainable development are the key trends in society. In order to follow the key trends and pursue a successful and sustainable business model, the Group recognises the importance of integrating environmental, social and governance aspects into its risk management system and has taken corresponding measures in its daily operation and governance perspective.

REPORTING FRAMEWORK

This ESG report is prepared in accordance with “Environmental, Social and Governance Reporting Guide” in Appendix 20 to the Rules Governing the Listing of Securities on the GEM of the Stock Exchange. The scope of reporting for this year has been extended to cover key performance indicators.

REPORTING SCOPE

This report covers the Group’s business activities in Hong Kong (i.e. Securities Brokerage, Underwriting and Placements, Money Lending, Securities Investment, Investment in Properties and Asset Management), which represent the Group’s major source of investment and income.

The segments of Manufacture and Sales of LED Digital Display Products, Trading of Garment Accessories and Trading of Commodities were excluded on the scope of this report, as those operations had been suspended and those figures are considered immaterial.

The Group will continue to assess the major environmental, social and governance aspects of different businesses to determine whether it needs to be included in the environmental, social and governance reporting.

REPORTING PERIOD

This ESG Report specifics the environmental, social and governance activities, challenges and measures being taken during the year ended 31 December 2017 (from 1 January 2017 to 31 December 2017).

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (Continued)

SUSTAINABILITY VISION AND FOCUS

The Group takes an integrated approach to sustainability, incorporating environmental and social considerations into our decision-making and actions. We focus on minimising the impact of our operations on the environment and creating positive impact in the community through our business. In doing so, we are guided by a set of core sustainability values and an effective governance structure.

The Group believes that promoting sustainability is as important as achieving medium and long-term business growth. It has therefore made continuous efforts to maintain a high degree of sustainability in its operations. Moreover, it values opportunities to learn more about the needs and expectations of the communities in which it operates, as well as those of other stakeholders.

STAKEHOLDER GROUPS AND ENGAGEMENT

Stakeholder engagement is an integral part of our business development and commitment to corporate sustainability. We develop medium-term and long-term relationships with stakeholders and consider their views on our business development through various formal and informal, independent and internal stakeholder engagement exercises.

Through our regular engagement activities, we are able to keep an ongoing dialogue with our stakeholders, enabling us to make more informed decisions, and better assess and manage any resulting impact.

A. ENVIRONMENTAL

General Disclosure and Key Performance Indicators (“KPI”)

We are committed to protecting the environment and environmental considerations are taken into account during our decision-making process. The Board of Directors has overall responsibility for environmental considerations across the Group while each business segment has its own responsibility to implement appropriate environmental measures.

A1. Emissions

The major business of the Group does not involve any manufacturing processes in the course of business. Therefore, during the year ended 31 December 2017, the Group and its offices did not generate significant emissions, water pollutants and hazardous wastes during the operation, except for greenhouse gas (“GHG”) emissions and non-hazardous waste.

Global warming and climate change have become major environmental issues to the world. The Group aims to minimise energy consumption and carbon emissions and has been exploring ways of adopting operational model which incurs less adverse impact on the environment. From the reporting of environmental perspective, we mainly focused on the environmental impact of the Group’s offices and relevant measures to be taken during the daily operation and have formulated policies and procedures relating to the environmental management to govern limited GHG emissions and non-hazardous waste generated from our operation.

The Group has established a series of policies and guidelines to meet the statutory disclosure requirement on emission by local regulation and Law in Hong Kong.

GHG Emission

The consumption of electricity at the offices and petrol are the largest sources of greenhouse gas emissions of the Group. During the year ended 31 December 2017, the Group’s total GHG emissions amounted to approximately 53.6 tonnes and the total GHG emission per employee was 1.9 tonnes/employee. The detailed summary of the GHG emission is shown as below:

GHG Scope	Unit	Quantity	Intensity (Consumption/ Headcount)
Direct GHG emission (Scope 1) — petrol consumption	Tonnes	12.7	0.45
Indirect GHG emission (Scope 2) — electricity consumption	Tonnes	35.7	1.28
Other indirect GHG emission (Scope 3) — paper and water consumption	Tonnes	5.2	0.19
Total GHG emission		53.6	1.92

The Group has implemented a number of measures to mitigate energy consumption such as turning off the air-conditioning system at night or when leaving office, keeping the office temperature at 25°C in summer and using LED lights or energy-saving light in the office, etc.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (Continued)

The Group issues environmental-related memorandum to its staff to raise their awareness of environmental preservation. Notices and posters relating to the environmental information have been placed in the offices to promote the best practice of the environmental management.

Waste Management

The Group adheres to waste management principle and strives to properly manage and dispose wastes produced by our business activities. Our waste management practice has been complied with relevant laws and regulations relating to environmental protection. The non-hazardous wastes generated by the Group's operations mainly consist of paper, toner cartridges and ink cartridges. During the year ended 31 December 2017, the consumption volume generated by the Group is shown as below:

Non-hazardous waste category	Unit	Quantity	Intensity (Consumption/ Headcount)
Paper	Tonnes	1.08	0.04
Toner Cartridge	Pieces	7	0.25

We regularly monitor the consumption volume of paper, toner cartridges and ink cartridges and have implemented a number of reduction measures. The Group's office has also provided suitable facilities and encouraged our staff to sort and recycle the wastes to achieve the objectives in mitigating wastes, reusing and recycling in its operations. The Group maintains high standard in waste reduction, educates its employees the significance of sustainable development and provides relevant support in order to enhance their skills and knowledge in sustainable development.

Apart from recycling, the office has implemented various programs and activities to encourage employees to participate in waste reduction management, including:

- Promote green information and electronic communication, such as e-mail and electronic workflows, to implement "paperless system" concept;
- Place "Green Message" reminders on office equipment;
- Utilise used envelopes and double-side printing. (Paper for single-side printing would be only adopted when handling official documents and confidential documents when necessary); and
- Recommend the use of recycled paper.

The Group does not produce any hazardous wastes in its business activities.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (Continued)

During the year ended 31 December 2017, the Group was not aware of any material non-compliance with laws and regulations relating to the air and greenhouse gas emissions, discharges into water and land, and generation of hazardous and non-hazardous waste that would have a significant impact on the Group.

A2. Use of Resources

General Disclosure and KPI

Energy Consumption

Due to the business nature of the Group, the volume of energy consumption, electricity consumption and water consumption are considered as relatively low, in particular water consumption is very minimal. As mentioned in the Aspect A1 section, the Group has formulated policies and procedures relating to the environmental management, including energy management. Electricity consumption and petrol consumption account for a substantial part of the carbon emission for the Group.

During the year ended 31 December 2017, the Group's consumption in petrol and electricity were:

Energy	Unit	Quantity	Intensity (Consumption/ Headcount)
Petrol	Litre	4,785	171
Electricity	kWh	45,161	1,613

On top of the measures of mitigating the energy consumption mentioned in previous section, the Group strives to utilise telephone or video conference to minimise face-to-face meeting in order to reduce petrol consumption in traveling and unnecessary business trips. The Group encourages resources saving in daily office operation and proactively fosters a low-carbon corporate culture, which further increases our employees' awareness in energy conservation.

Water Consumption and Use of Packaging Materials

During the year ended 31 December 2017, the Group does not consume significant water in its business activities. Regardless of limited water consumption, we still promote behavioral changes at office and encourage water conservation. Pantry and toilets are posted with environmental messages to remind employees for water conservation, which results in further enhancing our employees' awareness in water conservation.

In addition, due to the nature of business, the Group did not have physical products for sale and therefore did not involve any use of packaging materials. Therefore, this disclosure is not applicable to the Group

A3. Environment and Natural Resources

General Disclosure and KPI

Environmental Impact Management

We strive to minimise the environmental impact of our operations by implementing a variety of green measures, including responsible use of resources, reducing carbon emissions, energy saving, waste management and pollution prevention.

We recognise that our operations have an environmental impact, particularly through:

- Lighting, heating and cooling of our offices
- Fuel consumption of vehicles
- Generation of certain hazardous (e.g. bulb use) and non-hazardous waste

As a result, the Group is committed to:

- Enhancing our contributions to environmental sustainability through sustainable development initiatives and implementing good environmental practices
- Regularly reviewing our business practices to identify how we can use resources like energy, water and other materials sustainably and more efficiently, while reducing waste and greenhouse gas emissions
- Recycling program for unused or damaged electrical and electronic equipment
- Reduction of printing paper and finished good packing paper usage
- Various energy savings initiatives, including LED light usage

The Group regularly reviews its environmental protection policies and has adopted the necessary precautionary measures and actions to reduce significant impact on the environment and natural resources, and ensure that the Group complies with relevant laws and regulations.

During the year ended 31 December 2017, the Group has not found any material non-compliance with laws and regulations in respect of the environment and natural resources.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (Continued)

B6. Product Responsibility

General disclosure

The Group's business activities are required to comply with the rules and regulations of various regulators in Hong Kong. The Group strictly adheres to the applicable laws and regulations relating to product/services responsibility in Hong Kong such as Securities and Futures Ordinance and Money Lenders Ordinance.

Safeguarding Customer Assets

Certain subsidiaries of the Group are licensed and regulated under the Securities and Futures Commission. As a custodian of customers' assets, we strictly comply with the relevant laws and regulations on handling and safeguarding of customers' assets. We implement the necessary controls to ensure customers' assets are accounted for properly and promptly, and adequately safeguarded.

Segregated accounts are maintained in keeping customers' assets. Transactions should only be executed when customers' consent is received, or customers' obligation is required to be met on agreed contracts. Adequate audit trail is maintained to enable investigation of suspected irregularities. Regular compliance reviews and audits are conducted to detect any non-compliance with regulatory requirements. Any irregularities should be immediately reported to the management.

Measures for Lending Business

The Company refrains from lending money to intended borrower who has entered into any third party agreement with third party in relation to the loan unless the third party identified fulfils specific conditions stipulated in the money lender's licence.

The Company gives explanation to the intending borrower of all the terms of the agreement, in particular the terms in relation to repayment. Any advertisement in relation to the money lending business issued or published by the Company contains the Company's telephone hotline for handling complaints and a risk warning statement.

Handling of Personal Data

For the customer privacy protection, the Company takes all practicable steps and measures to ensure that personal data collected in the course of his business are protected and at all times complies with the Personal Data (Privacy) Ordinance, Chapter 486 of the Laws of Hong Kong, in the collection, use, holding and processing of such information or personal data.

During the year ended 31 December 2017, the Group was not aware of any material non-compliance with relevant laws and regulations related to product responsibility.

B7. Anti-corruption

General disclosure

The Group has a set of anti-corruption policy to ensure compliance by all employees, officers and directors of the Group, and its subsidiaries and affiliates, with related anti-corruption laws in which the business segment does or intends to do business.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (Continued)

Bribes, Kickbacks or Other Corrupt Payments

All employees are prohibited from directly or indirectly offering, giving, soliciting or receiving any form of bribe, kickback or other corrupt payment, or anything of value, to or from any person or organisation, including government agencies, individual government officials, private companies and employees of those private companies under any circumstances.

Facilitation Payments

Generally speaking, the Group prohibits the payment of facilitation payments except under very exceptional special occasions and only with prior approval by the Board of Directors (or, if prior approval is not reasonably possible given the circumstances, as soon as possible following such payment).

Relationships with Third Parties

The Group prohibits corrupt offers, promises and payments made through partners, intermediary agents, joint ventures, or third parties. In addition, contracts with agents or third-party representatives and joint venture partners should, to the extent possible, include provisions to mitigate against the risk of potential illicit payments.

During the year ended 31 December 2017, the Group was not aware of any material non-compliance with relevant laws and regulations related to anti-corruption.

B8. Community Investment

General disclosure

The Group is actively seeking opportunities to make contribution to the society and the Group has always encouraged our staff to participate in voluntary and charitable events to serve the community and society.

Our core sustainability values:

- We believe a thriving working environment and community facilitates our continuing business success
- We consider ongoing communication with our stakeholders as vitally important to upholding the well-being of the working environment and community
- We will continue to engage with our stakeholders' views and work together with them to achieve a win-win scenario

OUTLOOK

The Group plans to implement more environmental, social and governance measures in its operation to reflect its responsibility towards the environment and society.
